This is the classic question of which came first, the chicken or the egg? This tune was recorded as a country song in the 1950's by Porter Wagoner. I learned this tune at a festival and while it's a great crooked fiddle tune, there was talk that it was modified from the song. No one I've met can tell me which came first, the fiddle tune or the country song.

Tell Her Lies And Feed Her Candy  
One Octave, Up The Neck
